

ABIOLA INTERNATIONAL SCHOOL

2020/2021 1ST TERM NEWSLETTER

SEPTEMBER

Dear Parent,

We congratulate you on your efforts so far at keeping the children and yourselves safe during these trying times. This too shall pass and we will all be thankful for it.

In compliance with the Lagos State Ministry of Education, we are undergoing an online registration with the Lagos State Quality Assurance. Most of our operations would be tailored along the laid out procedures for the Reopening of Schools in Lagos State.

Virtual Learning

We thank you for your unflinching support towards our online session. It was a worthwhile experience for both our pupils and teachers. Now to a great degree, we can say we have put the 3rd term 2019/2020 academic session behind us. However, we have plans in place to accommodate any pupil(s) who did not participate fully in the online experience in the last term. Feel free to speak with the school administration concerning that.

Notwithstanding, our operations this term would be different from what we have always had. We are working in consideration of the health and safety of our pupils, staff, and parents as school re-opens Tuesday 29th September 2020.

Curriculum

The school is known for its blended curriculum across content areas. We have taken a giant step further with a blend in Instructional delivery. The school is engaging pupils with both physical and virtual learning, starting with this term. Every pupil is expected to come to school with a laptop or a tablet. Most of our work going forward employs both physical and virtual classrooms. We must leverage technology and provide a robust learning experience for our learners. Your ward(s) would have access to an internet facility at a cost that would be added to the Educational Resources. Pupils would be in school four days out of the five working days of the week. Usually, our Fridays are for extracurricular activities like Brownie, Cub Scout, and other club activities which generates a high point of social interaction that would be put on hold. Our pupils are expected to be in school, Monday through Thursdays every week. Pupils are to come to school daily with their face masks.

Uniforms

Our school uniform remains the same. We encourage you to visit the school and pick up uniforms for your wards. Navy blue or black socks, branded white school tops and the blue pinafore/shorts are available at the school. It would be nice to have your ward(s) come in with an age-level shield or a customized navy blue nose mask to fit.

back to school

Health and Safety

The wellness of all stakeholders is imperative for the sustainability of this new session. We appeal to all concerns to ensure personal hygiene. Any child with any form of ailments is advised to stay at home. Every child and adult should have a hand sanitizer and nose mask/shield.

Punctuality

We encourage all parents to drop their children early enough to enable you to Sign In your ward. Every guidance that drops and pick up in the school would sign-in in the morning and afternoon.

School Hour/Pick up

Pupils are expected to be in school at 8.00 am and close at 1.30 pm. Parents are to pick up their wards as soon as the school day is over at 1.30 pm. We would also appreciate that you send in the name and picture of any other person that is likely to pick up your ward apart from you for safety. The Health and safety of your ward is most paramount these trying times. Parents must cooperate with the school to ensure we don't have any pupils in the premises after school hours.

Transportation /Meal

Parents interested in school shuttle and meal for their ward(s) should ensure payments before resumption to enjoy the services. We appeal to you to cooperate with the school for us to serve you better.

Parents/Teachers Forum

We look forward to hosting you on Thursday, the 24th of September at the school premises for further discussion and suggestions. This would also give you the opportunity to meet and discuss with the teachers that would be taking your ward(s) on some subjects. We hope to demonstrate to you the New Norms and how your ward would be learning henceforth to meet the needs of the 21st-century innovation and opportunities.

Thank you.

Abosede Alli,

Abosede Alli

RECENT CLASS ACHIEVEMENTS

From the Upper and Lower Primary Pupils

The virtual learning last term was both adventurous and fun for our pupils as individual pupil explored their innate abilities during our project week. See pictures of some of what our pupils brought to live in the virtual learning session.

Our Wall of Achievement is a beacon of positivity and possibilities for all of our young pupils.
